INVOICE #MPOR-00594

FOR SERVICES RENDERED

May 1994

**OSHA Ruling**

- Met with representatives of the following industries:
  - Beverage, bar and taverns;
  - Restaurant workers;
  - Bakers, machinists, sheet metal workers and carpenters;
  - Teamsters/mine workers.
- Wrote paper explaining why the setting of zero exposure levels is based on bad science.
- Drafted paper that will contain the talking points for local unions to present to national unions.
- Researched exposure assessment guidelines to determine how studies deviated from these guidelines.
- Wrote paper that explains why ETS should not be in a separate section from other indoor air constituents.
- Wrote paper to the restaurant and bar associations regarding the impact the proposed rule would have on these establishments.
- Met to discuss the paper to be handed out to labor unions to persuade them to join our position.
- Wrote paper to labor unions regarding the segregation of smokers and nonsmokers versus the separation of smokers and nonsmokers.
- Wrote paper that will be used by local unions to persuade the national unions to be interested in our problem.
- Worked on potential points of attack regarding why the risk assessment studies are not appropriate to be used by OSHA.
- Conducted research into the funding of risk assessment studies.

2029377057

- Perused the studies to determine whether funding for the studies came from PHS.
- Read and studied the Fontham et al. study which is the basis for the lung cancer portion of OSHA's preliminary risk assessment.
- Read and studied the Helsing et al. study which is the basis for the heart disease portion of the preliminary risk assessment.
- Spoke with OSHA to determine which studies were used for which parts of the risk assessment.
- Conducted research into the information that the authors of the study should have known about ETS when they started their studies, or at least before they wrote the reports after the studies were completed.
- Meeting to discuss the plan of strategy for the hospitality industry.
- Reviewed information on mechanical ventilation systems.
- Prepared drafts of working points for motel, hotel, restaurant and bar industry.
- Prepared drafts of working points for accommodation industry locals to transmit to their national organizations.

Total Professional Services                      \$20,000

***TOTAL DUE***    **\$20,000**
